

1 Consensus Voting (Overview)

✂ Two Stakey's shaking hands.

2 Consensus Voting (Rules)

✂ Amenity sign with numerous activities outlawed represented with a "striked roundel".

3 Consensus Voting (Infrastructure)

✂ Stakey is engaging in some construction orientated activity: tightening a bolt, hammering in a post. Grimacing at times of strain.

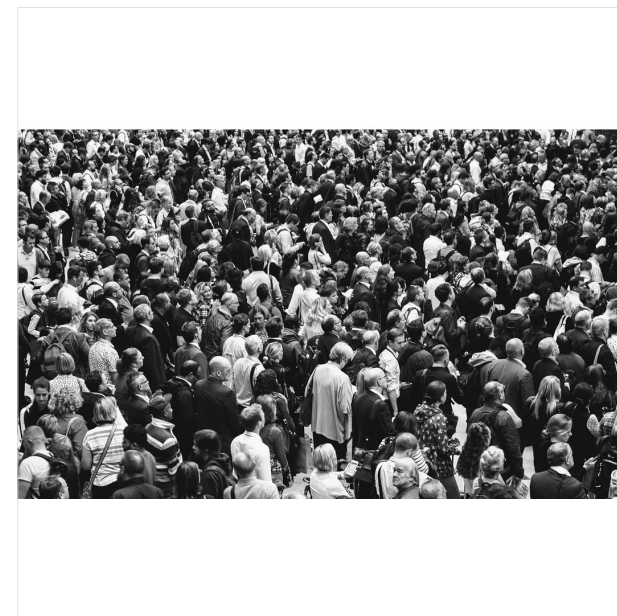

4 Consensus Voting (Timeframe)

- Changes to Decred's consensus rules can only be made through an on-chain voting process which lasts for around one month.
- Graphic Match: between Stakey and the boxy form of a Calendar.

5 Consensus Voting (Voting)

- Each ticket votes to approve or reject that proposed change (or abstains)
- A sequence of Voting Cards presenting the 3 voting options that tickets have. (Yes / Abstain / No)

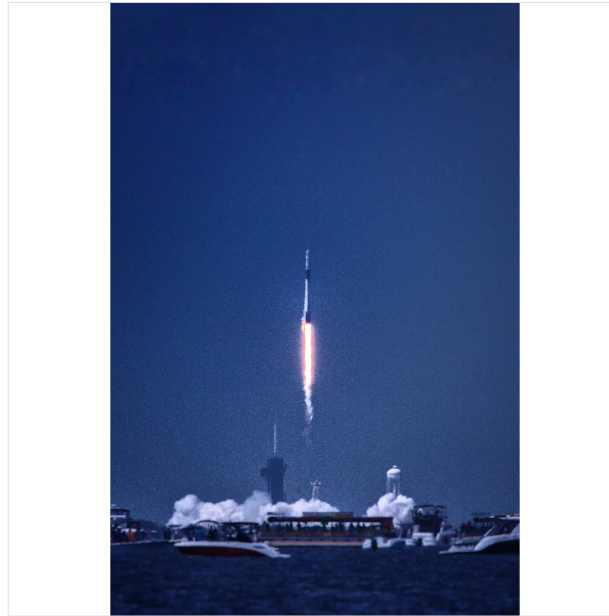

6 Consensus Voting (Approval)

- For a rule change proposal to be adopted it requires approval from at least 75% of voting tickets.
- Stakeys celebrating in the (masked) outline of 75%

7 Consensus Voting (Hard Forks)

✂ Stakey poised with a fork, tapping it on the ground from time to time

8 Consensus Voting (Implementation)

✂ (although slightly distasteful) Astronaut Stakey navigating "the final frontier".
